Forecast for Thursday 30 Mar 2023

Weather: Clear or sunny periods for most of the day. Mostly dry this morning, but a few showers will spread northeast in the afternoon before it becomes drier this evening. Chance of a brief heavy shower for a time this afternoon.

Chance of cloud-free hill tops above 800m: 70%

Low Cloud and visibility: Very good visibility with cloud mostly above the summits. Some thin cloud around 300 metres at first, otherwise summits mostly free of cloud. Cloud lowering to 850 metres this afternoon as showers pass by, this may become more extensive in the time around mid to late afternoon.

Note cold temperatures at height.

Forecast for Friday 31 Mar 2023
Weather: Mostly dry in the morning with areas of low cloud around mid-mountain level. Cloud will thicken in the afternoon bringing the chance of some patchy light rain or drizzle, mainly to the Ochils and Angus hills. Some higher summit snow possible later in the day.

Maximum wind: Easterly average speeds of 20 gust 30 mph developing on the summits by afternoon

Chance of cloud-free hill tops above 800m: 50%, best chance in the morning across the west of the area

Low Cloud and visibility: Patches of cloud around 500 metres at first, chiefly across the Angus and Aberdeenshire hills and the Ochils. Cloud becoming widespread from the east in the afternoon and evening down to 400 to 700 metres with widely poor visibilities on the summits.

Temperature: **Glens:** Plus 5 rising to 11 Celsius
At 800m: Plus 4 Celsius
Freezing level: Around 1400 metres but lowering to 1100 metres across the southern Cairngorms later
